

Registration Process Distressed & Abandoned Properties Riverside County – Unincorporated Areas

When a property should be registered

Registration is required if a property in foreclosure becomes vacant or shows signs of vacancy and is located in the unincorporated areas of the county. Registration is required annually and is not prorated.

All residential properties located in the unincorporated areas that are in the stages of foreclosure or are “bank-owned” must be registered. The registration of the property includes the designation of the local property maintenance contact.

Prior to recording a Notice of Default, an inspection of the property is required. Inspections must be performed monthly until property in default/foreclosure is remedied or the property becomes vacant or shows signs of vacancy. Once a property becomes vacant or shows signs of vacancy, the trustee is responsible for maintenance and to register the property with the county.
